## A Word From Our President...

Merry Christmas! Wow, another year almost gone. It seems like they go quicker every year. LICA activities have been diminished this year with the Covid virus hindering our meetings and conventions. Hopefully we will start to see some normalcy within the New Year, with the promising vaccines being administered. Nominations are still needed for 2020 Contractor of the Year/Contractors Wife. The forms can be located under the Members Only section of the INLICA website. This section is password protected, your membership number is the password. If you have misplaced your number (it's been quite awhile since the cards were sent out) simply contact the INLICA office.

I wish everyone a safe and joyous holiday season,

Bryan Noggle,  
INLICA President

# INLICA Members and Associate work with local school FFA

Johns Bros. Tiling and Excavating (Francesville), along with material donations from FRATCO, recently aided in a plot improvement for the West Central FFA. An Ag Field Day was held on November 6th on school grounds, on a plot of unhealthy walnut trees. Johns Bros. helped to clear the area and ready it for the installment of a drainage system. Students were invited outside to watch the installation of the tile and were given information on the importance of these drainage systems and how they can be beneficial to future crops. INLICA would like to thank both Johns Bros. Tiling and FRATCO for giving our local youth a glimpse into the drainage industry.

As many of you are aware, National LICA is currently producing a book on the History of Drainage. The INLICA Board has the intentions of distributing this production out to libraries across our state. Events such as the this Field Day will be a great venue to help promote this book and the importance of drainage for future generations. If you happen to know of such events please feel free to contact the INLICA office and see how we might be able to get involved.

# TRUST ISN'T GIVEN. IT'S EARNED.

**Rick Gosser**  
Crawford Drainage  
ADS Contractor

There's a reason more than a billion feet of ADS pipe lies beneath North America's farmland. It's simple; we build trust. Contractors across Indiana trust ADS to deliver total ag water management solutions. Whether it's tile, lift stations or water control structures, ADS has everything you need to improve the land for future generations.
